

# 3D PAPER

AN ECOLOGICAL ALTERNATIVE TO BUBBLE WRAP.  
THANKS TO THE APPROPRIATE INCISIONS, THE  
PAPER, WHEN STRETCHED, CREATES A  
"HONEYCOMB" STRUCTURE, GIVING THE 3D  
EFFECT.  
IT IS VERY FLEXIBLE AND THEREFORE PERFECTLY  
ADAPTS TO THE SHAPE OF THE PRODUCTS.  
IT HAS A SECURITY FUNCTION AND IS VERY  
EFFICIENT.  
3D PAPER ALSO GIVES THE EFFECT OF STRETCH  
FOIL - WHEN STRETCHED, ONE LAYER STICKS TO  
THE OTHER AND DOES NOT UNFOLD.

AVAILABLE DIFFERENT PAPER COLORS AND ROLL WIDTHS
